I had this on our BMW 128i. (Also fits 135i) for 2 years, and it was the only modification...it turned the car into an autocross winner in the Stock class. We beat the other BMW's, Mustangs, and Camaros. 32 mm (hollow), HD mounts with grease fittings, upgraded end links.

\$100. Tire Rack sells it for \$354.

In Belmont or Reno area.
