WHY>>>!!!!

I still regret selling my Capri to this day.

Ben

Bob, I love your car... it would be a lot of fun to run in the prepared classes and I have always had a soft spot for old Datsun. What approximate price range would you be expecting for a car of this class?

THIS is a great car! Bob, why don't you just store the car in Modesto?! :)

Are you gonna be running @ DeAnza this weekend?!

Bob, Thanks for giving me a chance to co-drive with you at deanza. The car was great fun to drive. I have never driven a prepared category car before so I was surprised that by the third lap, I was fairly comfortable driving the car. which I think is a testament to how well developed your car is, most cars have some idiosyncrasies you need to learn to drive around, yours did not.

Thanks again,  
Nathan
